The Cleveland High School and the Cleveland Female Seminary have tested this system, and are highly pleased with it.

We call attention to Dr. Lewis' advertisement in to-day's LEADER, announcing the time and terms of the next session. Dr. Lewis pays Ohio the compliment to call his first graduate, Mr. Charles S. Fouts, the builder of this school edifice which is now rapidly approaching completion, showed us through the building vesterday. It is a very substantial strucure of brick, three stories high beside a pasement, and without particular ornament

of any kind. Mr. Porter, of this city, is the The building is 108 by 76 feet on the ground. A hall runs through it lengthwise, ranging in width from 8 to 12 feet. Cutting this at right angles are four side halls, which will serve as the main entrances for "the young folks,"-the long central

hall, with its front door, being reserved, we suspect, for "company." The space on the first and second floors is divided up into six apartments, each one being 27 by 32 feet. These rooms are large,

high and well lighted, having four windows each, and, we are happy to add, well ventil-The side halls communicate directly with the three rooms on either side of the build ing, as well as with the central hall. Passing into the latter, the pupils will mount

by means of easy stairs to the second and third stories. The general arrangement of the rooms or the upper story is similar to that of the first and second floors, with the exception that there is in the central part of the building s large Grammar spartment, 52 by 66 feet, having five windows on each side. This room is very siry, light and commodious. Several small apartments have been cut off to serve as teachers' rooms, in this story.

The structure has a tin and slate roof. The building is so high, its roof makes a good observatory. On a clear day, a magnificent view is commanded therefron The lake is a spectacle one would never tire looking at from this pinnacle, and a wide reach of prospect extends inland at every point. The Newburgh Asylum is plainly visible. No one perceives the full signific ance and appropriateness of the name which our beautiful city bears-the Forest City,nutil, with the bird's advantage of a high out look, he can see the vast area of houses almost buried in a cloud of foliage, as he

can see them from the top of this school The basement room is seven feet high, and is divided into various apartments, for

fuel, the convenience of pupils, &c. The mode of heating the building has not yet been fully decided upon. The front yard will be about 76 by 30 feet, and ornamented with trees, &c. There will be a large back yard, to be used as a play ground by the scholars. It will be in area about 110 by 300 feet, and divided into two apartments, one for either sex, and graded and gravelled.

The building was commenced last August, and, it was hoped, would be finished in July. But the interruption in the work last winter, will put the finishing day over till the 1st of September. The house will cost between \$35,000 and \$40,000, and, though not an ornamental building, will be, when completed, an honor not only to Brownell street, but to the city at large.

DROWNED .- A yawl containing two boys was run into and upset near the Columbus street bridge, yesterday forenoon, by a mudscow in tow of a tug. The boys were pitched out, and one of them went under the flat boat, but the other sank before help could reach him. His body was fished up and taken to undertaker Howland's establishment where Coroner Prentice held an nouest on it.

The deceased was not known here, and nothing was found on his person by means of which he might be identified. It is supposed, however, that he came here on an Oswego vessel. He was sixteen or seventeen years of age, five feet six inches high, had light hair, blue eyes, and fair complexion. He had on a gray weelen shirt, light vest, dark pants, and calfskin boots.

PERSONAL.-We had a call from our old friend Rev. H. O. Sheldon, formerly of Beres,, now agent of the Missouri Board of Immigration. Mr. Sheldon was one of the first to raise the flag of Free Soil and has lived to see his principles triumph in his newly adopted State and over the Union. We understand that S. Foljambe, Esq., is

Ironsides, Captain J. E. Turner, arrived at this port yesterday morning. On her way down she ran through, on the 26th inst., several miles of new made ice, between Eagle River and Copper Harbor. She made a quick run from Marquette to Detroit, a distance of 540 miles, accomplishing it in forty-one hours. Mr. John Holland, the popular Clerk of this eteamer, furnishes,

the following log of her trip down:

She left Ontonagon Thursday, May 25th, at 4 o'clock r. u.; Eagle River the following day, stopping at all the way ports. She left Marquette at 7 o'clock P. z. Saturday, and the Sault, Sunday. The schooner Walrus was at Ontonagon discharging cargo. The schooner Jennie Bell, in trying to enter the harbor, went ashore west of the pier. She was loaded with grain in bulk, &c., for the merchants at Ontonagon. They were to commence lightening her the next day and will probably got her off without suataining much damage. The Pewabic was at Portage Lake, and the Iron City at Marquette. At Marquette were the schooners King Sisters, about ready to leave, Wyandotte, Grant, W. Sherman, Kimball, De Soto, Card and Nichols. Passed through the canal, bound up, on the 25th and 27th. Met the schooners Buckingham, Gen. Scott, Resolute, Tartar, and S. G. Andrews. Passed down on the same day, schooners Miami, G. W. Grant, New London, Collingwood B. Hinchman and Ironsides. Met the propeller Lac La Belle near Church's, Sault River, Sunday, and the tugs Peabody, bound to Lac La Belle, and Red Jacket, bound to Marquette.

The Ironsides brought down 200 tors o opper from the Cliff and National Mines; 200 tone iron ore for the Cleveland Iron Company, a lot of miscellaneous freight, and a good load of passengers. She leaves dock the of Malone & Petit this evening at eight o'clock, for a'l Lake Superior ports.

SPLENDID FIVE AND DRUM. - Surgespt's window was the centre of attraction on Superior street yesterday. Knots of people were gathered there all the afternoon, admiring the magnificent fife and drum which the 1034 O. V. L. have ordered from the establishment of E. G. Wright & Co. Boston, and are about to present to the drammer and fife-major of that regiment. Wm. P. Robinson and Andy F. Parsons, respectively. The fife is wrought of solid silver, in exquisite taste, and the ends are nounted with solid gold. It is inscribed Presented to wm. F. Robinson, by the 103d Regiment, 1865," The badge device of the 3d Division, 23d Army Corps, is engraved upon the chief key, and the body of the fife is ornamented with the historic names of Resuca, Atlanta, Franklin, Nach ville, Wilmington. The fife is valued at and cost \$300.

The drum is made of rosewood, most elaborately wrought and highly finished. The mountings are of solid silver, and the names of the following memorable battle fields are engraved, one on each of the various silver shield-like devices attached to the strain-cords: Resars, Atlanta Kinesaw, Franklin, Nashville, Knoxville, Wilmington, Blue Springs, Columbia, Town Creek. The Buckey State cost-of-arms ornaments the body of the drum, and a large silver tablet bears this inscription: "Presented to Andy F Parsons by the 103d regiment Volunteer Infantry, 1865." The sticks are solid ebony, mounted with silver, and inscribed like the drum. It cost \$100. Captain Charles E. Sargeant leaves to day for Releigh, N. C., where the regiment now is, and will carry out to the destined

recipients these magnificent presents. ACADEMY OF MURIC.—The fine little domeetic drams of "Self," is not receiving that large appreciation from our publi which its intrinsic merits, and the merits of its representation domand. It was prosented a second time, last night, but to a house altogether too small.

In several respects the representation was better than that of the first night,-More vigor was infused into some of the Heme at the Dapot. Any one desiring to parts which lacked life, expression and reality on the first occasion. Mr. Elister was the same opinionated yet reasonable "cocoa-nut man," "John Unit." Mr. Evans showed more feeling, and Miss Adams, as the extravagant wife of the well nigh suined merchant, "Mr. Apex," entered more fully into the spirit of the performance, and her personation, as a consequence, had less of the artificial, affected air, which characterized her first representation, Mr. Lee, Mrs. Elisler and Mrs. Bradshaw appeared with their usual excellence in their several parts, and put the house in the best of hu-

The dancing of Signor and Signorita Zimines, at the close of the play, was pleasing and graceful.
